Jess' Words:

"I joined Bedford as a graduate accountant in November 2021, just after completing my bachelor's degree.

As a graduate at Bedford, my experience was filled with supportive team members and peers who were always there to lend a helping hand. The company provided regular trainings, which greatly enhanced my professional growth and development. I also had the opportunity to work with a diverse range of clients and handle a variety of tasks, which gave me valuable exposure early on in my career and enriched my overall experience.

One of the main reasons keeping me at Bedford is the incredible people I work with. The supportive and collaborative environment created by my colleagues and teammates makes each day a rewarding experience.

Additionally, the company provides ample room for personal and professional growth, offering ongoing support from managers and peers. The work itself is both enjoyable and fulfilling, and there are endless opportunities for learning and skill development."

Chi's Words:

"I joined Bedford towards the start of my final semester of university as an Undergraduate in 2022.

It's been a wonderful and fulfilling experience! I'm learning a lot and it's a fun time here. The experience I get at Bedford is hands-on, so I'm able to learn first-hand. What helps a lot too is that my coworkers are supportive towards the growth of my career as an Accountant.

The people are what makes it worth working here. They're willing to mentor me and guide me towards the career path I'm heading towards.

Bedford also provides numerous opportunities to build my overall skills as an accountant. They're also fun to be around!"
